## 1000 Contact List Introduction

The Contact List serves as a comprehensive collection of contact information for those federal, state, and local agencies, as well as tribal authorities, which may have jurisdiction or regulatory authority over a pollution event, or that which can provide support/expertise to a response effort. In addition, contact information for Non-Government Organizations, firefighting experts, salvage equipment providers, oil pollution response cooperatives, oil pollution response equipment providers, and members of academia who focus on issues relevant to pollution response have been included.

## 1100 Purpose

This list is not intended to be complete and will require routine maintenance and refreshing as personnel in certain positions transfer and as companies, agencies and organizations change.
